That the Kaipara District Council:

- a) Notes the Quarterly Performance Measures report – October to December 2024.

Context | Horopaki

Performance measures are set once every three years at the long term planning stage. The Long Term Plan (LTP) sets our vision, direction, budgets and work plans. Performance measures are our commitment to the community and ensure we are delivering what we said we would. This report represents the second quarter of year one of the 2024/2027 LTP. The performance measures are a combination of important community feedback on our levels of service that are gathered from an annual residents survey, as well as measures using number and percentage targets e.g. the number of complaints about drinking water. Some of the measures are based on levels of service, while others are based on statutory obligations.
