

# Strategic Asset Management Plan - Transportation

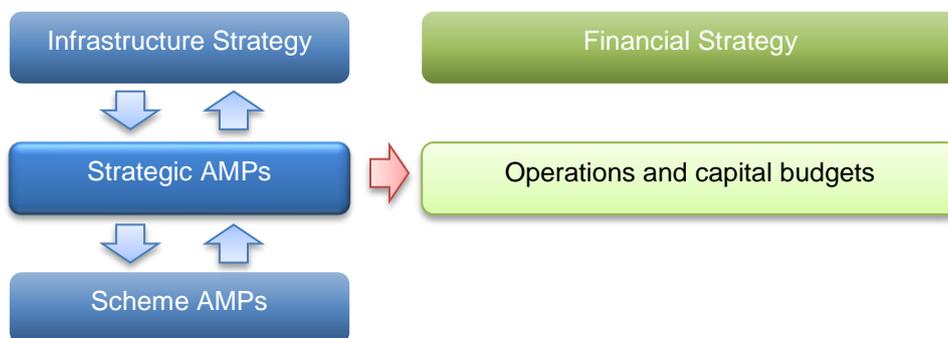

**Meeting:** Long Term Plan Briefing  
**Date of meeting:** 09 September 2020  
**Reporting officer:** Jim Sephton, GM Infrastructure Services

## Purpose/Ngā whāinga

To update Council on the progress of the Strategic Asset Management Plan (SAMP) for transportation, and seek feedback which will be incorporated into the Long Term Plan (LTP).

## Context/Horopaki

SAMPs form a key part of the LTP and sit under the Infrastructure Strategy.

The Draft Infrastructure Strategy has a 30-year horizon and illustrates how we will respond to key issues, trends and growth.

There are seven SAMPs (with a 10-year horizon) for

- Water
- Wastewater
- Stormwater
- Land drainage
- Waste minimisation
- Parks and open space
- Transportation.

## Discussion/Ngā kōrerorero

The focus of today's discussion is the **Transportation SAMP**. The other draft SAMPs were presented to Council at the July 2020 Long Tern Plan Briefing.

A presentation on the new Transportation SAMP will be circulated to elected members before the briefing for their consideration.

## Next steps/E whaiake nei

Feedback from Council will be used to inform the refinement of the Strategic Activity Management Plans.
