

Petition to have - The removal of the Norfolk Pines at Pahi

We, The Pahi Reserve Society Inc., are petitioning the Kaipara District Council and Northland Regional Council to have the Norfolk Pine Trees located at Pahi, right by the Children's Playground, removed.

These two trees have become dangerous to the point of deteriorating branches falling into the playground, one of which narrowly missed one of the play equipment in the playground, while a child was playing in there.

There is a Bed and Breakfast next to the playground which is also in danger of falling debris on a windy day, and again deteriorating branches falling into the driveway just missing the house itself.

There are Semi permanents caravans directly under these trees, and again deteriorating branches fall onto the roof of the caravans.

These Norfolk pines are NOT a protected species, they were put onto the National Tree Register by an arborist appointed by the local council at the insistence of the then Pahi Reserve committee.

These Trees need to be removed, they are a danger to surrounding property, all of which if damaged by these trees will not be reimbursed by any Council, the cost of repairs falls onto the owner/s of the surrounding properties. The Playground is a major concern, as in the photographs attached, these branches that fall are not small. The damage sustained to any child or adult in the playground at a time when a branch may fall could be fatal. Please support us in getting these trees removed so we can replant with a more appropriate tree, there are many suitable natives that can be planted as replacement trees.

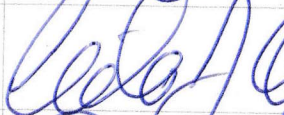

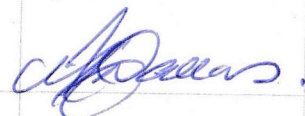

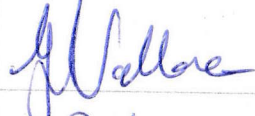

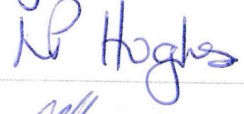

The Pahi Reserve Society Inc. - Thank you for your support

| 4. | Jennifer Mackinnon | PAPAROA | palmhousepahi@xtra.co.nz | Yes | 0276888296 | I have resided at 669 Pahi Rd next door to the said trees for 18 years. I am unable to use my driveway due to the constant falling of branches which have previously damaged my vehicle not to mention the constant deluge of needles and cones on my property and house (on average 25 Garden sacks annually). I have found the council difficult to deal with regarding the maintenance of these trees and on one occasion had to employ an independent arborist to report to them the need to remove the many "hanger" dead branches threatening my property not to mention the safety of children playing on the playground and permanent caravans. . | 2021-02-24 |

| 8. | Deborah Groom | Auckland | debs.groom@hotmail.com | Yes | 0272106778 | Im signing because we own one of the caravan/bachs under the pines and have had a branch fall on the roof several times\s, one of which damaged the roof with a large dent. We also get major fall of the large pine needles & the sap from these has damaged paint work on our cars, never mind it hurts when they falls on us. Would love to see some natives between us and the playground. | 2021-02-24 |

I have seen branches weighing many kg laying metres from where they have snapped off from the trunk of the trees. | 2021-02-25 |

| 19. | Beverley Simons | Pahi | simonsbev@gmail.com | Yes | 09 4316618 | This tree is a danger to all beneath it has no visual beauty Causes a huge amount of clean up work for the B and B next door. Has had poor maintainence and removal is the only option and surely cost effective . Legally the council has been alerted to the problems and danger .and would be responsible for serious injury or death. | 2021-03-03 |
